This is TSM Agency view to contact models on an opportunity and create a client proposal

Leads **Contact Models** Proposals Jobs CRM/Clients Models

Contact Models

Available Models

This can have more tabs or whatever we need to make it clean and easy

Search

Criteria are at the top

#1

We can also "Broadcast" the job if we want

- enter a zip code and a radius (includes "available to work in")

- contacts all models

We need group sends and individual responses and messaging.

Search Results

Add Models

#2

click model for a pop up with more information

Drag to next column or selection box

Main profile picture

You can perform a new search that will reload the models but keep the selected models

Can scroll up and down

Added Models

#3

click model for a pop up with more information

Notes

#4

Opportunity

This is our most important interface

Message within the system to track all communication

email templates

text templates

Templates are fed information from lead (we do not have to retype it). If we want to edit we must go back to the lead.

How do we view messages and responde? Maybe a discussion board plugin? https://wordpress.org/plugins/wp-discussion-board/

LETTER AAND TEXT MESSAGE GO HERE AND CAN BE EDITED

#5

Outreach letter and text - to models AND CLIENT

link is the model sign in page (everything fed by form above and editable by us)

Text

Email

Opportunity added to models profile and our queue

We can pick which tier they are and show two different rates

Email goes to all of the models we select letting them know the job is avaiable and to make sure their profile is filled out fully, INCLUDES LINK to respond.

Available models

Models recieve a TEXT and EMAIL that takes them to their profile URL and TAB (my opportunites - they sign in if they are not) with the job details and a button to press that they are available.

They see the job info and apply

Once they apply we get an alert and their profile has a pink outline

All created job and opportunity pages must be "no index, no follow"

Models need to login

Clients do not (just visit page)

Contact

Create Client Page

Notes for each model
